

photo for reference

Model **PRM10000E**

Rated power **9.0 kVA**

Max power **9.5 kVA**

Technical characteristics

Power factor	0.8
Number of phases	Single phase
Rated output voltage	230V
Frequency	50 Hz
Engine type	Industrial 4-stroke air-cooled
Starting method	Electric start and manual
Hour meter	Available
Voltage regulation	Automatic
Output	Power socket 32A 2P+PE
Technological protection	Automatic circuit breaker, automatic stop (oil level), overheating protection
Design	Open construction with tubular frame
Availability in the delivery set	Wheels and handles, battery, power plug 32A 2P+PE, maintenance kit (filters, air filter etc.); with wheel.
Warranty requirements	12 months or 1000 operating hours
Equipped weight	116 kg
Engine life	1000 m/h
Automatic start function	Availability of automatic start by external signal (dry contact)
Noise level	80 dB
Fuel tank volume	25 L
